### Main Features

- Microprocessor control guarantees high reliability.
- Equipped with Boost and Buck AVR to stabilise input voltage.
- Built in DC start function enables UPS
- Auto charge when UPS is off.
- Auto start while in AC recovery.
- Provides overcharge and
- overload protection.
- Compact and lightweight.

### Key selling features

Emergency Backup  
Power Supply

AVR Protection

Cost Efficient

Spike Protection

### Technical Specifications

- 650VA model
- Power Rating: 650VA/  
360W
- Input Voltage Range: 170-  
280 VAC
- Output Voltage: 230 VAC
- Output Frequency Range:  
50Hz or 60Hz
- Typical Battery Recharge  
Time: 6 hours to 90% after  
complete discharge
- Interface: 1 USB port
- Dimensions: 278(L)  
x100(W)x143(H)
- Nett Weight: 4.4kgs
